

AKRITI JOSHI

Geomatics Engineering
Student

PROFILE

I am a Geomatics Engineering student with a strong interest in GIS, Remote Sensing, Python programming, and geospatial data analysis. I enjoy analytical and office-based work that involves problem-solving, spatial thinking, and technology-driven solutions.

As a dedicated and deep-thinking individual, I am highly focused on areas that interest me and am always eager to expand my knowledge and technical skills. My goal is to build a career in geospatial technologies, data analysis, and GIS-based applications.
